

2022 Congressionally Designated Spending Dollars For Hampton Roads

U.S. Senators Mark R. Warner and Tim Kaine

- **Following Kaine's request, \$6,000,000** is headed to the **City of Virginia Beach** to help support Centerville Turnpike improvements.
- **Following Warner and Kaine's joint request, \$5,222,000** is going to the **Cities of Norfolk and Williamsburg** to conduct water infrastructure projects in the region. A breakdown of the projects is as follows: The **City of Norfolk** will receive **\$2,500,000** to replace approximately 2,600 linear feet of aging gravity sewer and water mains at the River Oaks Pump Station. The **City of Norfolk** will receive **\$2,300,000** to replace approximately 2,500 linear feet of outdated gravity sewer and water mains at the West Ocean View Pump Station to provide reliable access to clean water and prevent sewer overflow. The **City of Williamsburg** will receive **\$422,000** to implement stream bank stabilization and wetlands protection to improve water quality for the Chesapeake Bay watershed and reduce nutrient runoff for the community of Walnut Hills.
- **Following Kaine's request, \$3,492,000** is headed to the **City of Suffolk** to replace the outdated Computer-Aided Dispatching (CAD) system in the City's Emergency Communication Center and the Police Records Management System (RMS). The current CAD system was installed in 2001, which is a security deficiency.
- **Following Warner and Kaine's joint request, \$2,500,000** is headed to **Cape Charles** to help fund the Accomack Northampton Transportation District Commission's conversion of approximately 2.3 miles of abandoned Eastern Shore Railroad and VDOT into a multi-use recreational trail.
- **Following Warner and Kaine's joint request, \$2,500,000** is headed to **Norfolk** to fund the construction of a pediatric mental health hospital at the Children's Hospital of the King's Daughters.
- **Following Warner and Kaine's joint request, \$1,800,000** is headed to the city of **Norfolk** to help cover facility and supply costs at the LGBT Life Center, which has empowered Hampton Roads' LGBTQ and HIV communities since 1989.
- **Following Kaine's request, \$1,500,000** is headed to the **City of Hampton** to help fund the preliminary engineering work associated with Phase B of the Coliseum Drive Extension Project, which will provide vast improvements to the operational capabilities at Joint Base Langley-Eustis.
- **Following Warner and Kaine's joint request, \$800,000** is headed to **Virginia Beach** to support a COVID-19 Displaced Worker Initiative for people who have been laid off,

furloughed, or have lost their jobs. The program is the product of a partnership between Virginia Wesleyan University and the City, and provides job training through hands-on workshops. The funding will cover the cost of having faculty teach 21-30 classes, which will be free for Virginia Beach residents, and will also help upgrade classrooms.

- **Following Warner and Kaine's joint request, \$580,000** is headed to Virginia Beach to support the Army Corps of Engineers' maintenance dredging in the Rudee Inlet, and support the removal of shoals.
- **Following Warner's request, \$450,000** is headed to **Williamsburg** to fund training, programming, and other support for entrepreneurs in the area through William & Mary's Entrepreneurship Regional Engagement program.
- **Following Warner and Kaine's joint request, \$2,900,000** is headed to the **City of Norfolk** to support the relocation of the historic William A. Hunton YMCA to new location that will be less prone to flooding. This important community resource provides valuable services to area residents, such as child care and afterschool services.
- **Following Warner and Kaine's joint request, \$199,000** is headed to **Portsmouth** for the Friends of the Portsmouth Juvenile Court, Inc.'s project to implement a Group Violence Intervention Program to address conditions that encourage participation and perpetuation of community violence.
