The Honorable Jeff Merkley
Chairman
Subcommittee on Interior,
Environment and Related Agencies
Committee on Appropriations
SD-142
Washington, DC 20510

The Honorable Lisa Murkowski
Ranking Member
Subcommittee on Interior,
Environment and Related Agencies
Committee on Appropriations
SH-125
Washington, DC 20510

Dear Chairman Merkley and Ranking Member Murkowski,

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2025 Interior, Environment, and Related Agencies appropriations bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate. None of the entities for which I have requested congressionally directed spending are for-profit entities.

Sincerely,

MARK R. WARNER
United States Senator

**Warner, Mark(D-VA) Interior and Environment
Congressionally Directed Spending Requests**

Recipient Name	Project Purpose	Project Location	Amount Requested (\$000)
Accomack County, Virginia	The repair and restoration of the Debtors' Prison, a historic landmark located in the Historic District of Accomack with the intention of preserving this valuable resource for the community.	Accomack County VA	\$350
Rivanna Water and Sewer Authority	Funding will be used to replace deteriorated equipment at the South Rivanna Water Plant to provide clean and safe drinking water for the City of Charlottesville and Albemarle County, Virginia.	Albemarle County VA	\$880
Chesapeake & Ohio Historical Society	To preserve and restore to an operational condition, a historic railroad car that transported a US President in connection with the planning and building of the Cold War Bunker.	Alleghany County VA	\$500
Town of Altavista, Virginia	Funding will be used to refurbish the wastewater treatment facility in the Town of Altavista, Virginia.	Campbell County VA	\$2,815
City of Alexandria, Virginia	The project seeks to renovate and create ADA accessibility to the Freedom House Museum, the 1828-1861 Alexandria Slave Pen and center of the Domestic Slave trade in Alexandria and the US.	City of Alexandria VA	\$2,500
City of Colonial Heights, Virginia	Funding will be used to replace approximately 3,700 linear feet of existing galvanized water line in the City of Colonial Heights, Virginia.	City of Colonial Heights VA	\$1,612
City of Danville, Virginia	Funding will be used to extend the existing water main to serve the Southern Virginia Mega Site at Berry Hill in Pittsylvania County, Virginia.	City of Danville VA	\$2,000
City of Galax, Virginia	Funding will be used to replace an existing water storage tank in the City of Galax, Virginia.	City of Galax VA	\$2,400
City of Hampton, Virginia	Sewer replacement of a failing sewer system within an historically underserved community. Moving sewers from backyards to the front of the houses on Cherry and Pear Avenues.	City of Hampton VA	\$1,680
City of Newport News, Virginia	Funding will be used to replace drainage infrastructure in the City of Newport News, Virginia.	City of Newport News VA	\$1,500
City of Newport News, Virginia	Funding will be used to reduce the possibility of sanitary sewer overflows at a pump station located within the watershed of the James River to improve the reliability of wastewater conveyance to an estimated 3,00 people daily.	City of Newport News VA	\$1,588
City of Petersburg, Virginia	The purpose of the project is to implement an accelerated program to assess and rehabilitate deteriorating large diameter sewer infrastructure, reducing inflow, infiltration, and risk of sanitary sewer overflows	City of Petersburg VA	\$4,000
City of Petersburg, VA	This project is to make improvements to the City's water meters to increase accuracy, improve staffing efficiency, recover revenue and reduce non-revenue water, water losses and customer complaints.	City of Petersburg VA	\$3,148
City of Portsmouth, Virginia	Funding will be used to correct hydraulic issues and eliminate sanitary sewer overflows in an industrial corridor near the Norfolk Naval Shipyard.	City of Portsmouth VA	\$1,687
City of Suffolk, Virginia	The project purpose is to replace failing sanitary sewer and potable water mains. Upon completion the project will have eliminated potential sewer overflows and removed any existing lead water services	City of Suffolk VA	\$3,000

City of Suffolk, Virginia	Replacement/relocation of a deteriorated 15-inch vitrified clay gravity sanitary sewer trunk line that abuts a stream flowing to the Nansemond River, a tributary of the Chesapeake Bay.	City of Suffolk VA	\$3,000
City of Virginia Beach, Virginia	This project will provide stormwater infrastructure improvements within the Lake Bradford/Chubb Lake area. The project includes a new stormwater pump station, stormwater infrastructure improvements as well as nature-based solutions.	City of Virginia Beach VA	\$5,000
Hampton Roads Sanitation District	Funding will be used to construct solids handling components at the Onancock Wastewater Treatment Plant to help HRSD achieve process and water quality goals.	City of Virginia Beach VA	\$6,625
City of Williamsburg, Virginia	Funding will be used to make improvements to collection sewers in the City of Williamsburg, Virginia.	City of Williamsburg VA	\$800
City of Winchester, VA	Funding will be used to construct a raw water reservoir to serve residents in and around the City of Winchester, Virginia.	City of Winchester VA	\$2,000
County of Greene, Virginia	This project will construct an adequate water tower in the Town of Stanardsville for adequate drinking water and fire flow to the community.	County of Greene VA	\$5,625
Greensville County, Virginia	Funding will complete engineering and construction for waste water collection services in a portion of the County that is targeted for commercial development.	Greensville County VA	\$1,360
Halifax County Service Authority	The Berry Hill Waterline Extension and Resiliency Project will assure increased service capacity and resiliency to an underserved residential area and provide a critical loop to another pressure zone serving a major residential, commercial, and industrial corridor.	Halifax County VA	\$3,750
Henrico County, Virginia	Funding will be used to retire private wells to provide clean drinking water to residents near the White Oak Swamp Watershed.	Henrico County VA	\$8,000
Henry County	The project will make public water supply service available to approximately 280 +/- homes in an area with a high incidence of groundwater well contamination from Total Coliform.	Henry County VA	\$8,000
Uwe Weindel	Funding will be used to replace lead service lines in the Campdown Community Water System to provide safe drinking water and reliable infrastructure of public water users.	Isle of Wight County VA	\$400
Uwe Weindel	Funding will be used to provide a safer and more reliable drinking water source to the Clyde's Dale Mobile Home Park and the County's Heritage Park.	Isle of Wight County VA	\$940
Uwe Weindel	The project will eliminate again or failing private septic systems on a neighborhood scale and improve the quality of life in the community by preventing septic failures.	Isle of Wight County VA	\$2,650
Town of Stuart, Virginia	To develop water and sewer infrastructure for the Patrick County Public Service Authority, which is provided wholesale water and sewer capacity by the Town of Stuart, VA.	Patrick County VA	\$1,451
Pittsylvania County, Virginia	Funding will be used to replace the HVAC system, make significant electrical upgrades, install energy-efficient windows and make cosmetic repairs to preserve the historical integrity of the Moses Building.	Pittsylvania County VA	\$500
Prince Edward County, Virginia	To provide a new reliable, secure drinking water source for Prince Edward County, the Town of Farmville, and surrounding communities in addition to three state facilities.	Prince Edward County VA	\$3,980
Prince George County, Virginia	Funding will be used to design the replacement of approximately 21,000 linear feet of asbestos cement waterlines in Prince George County, Virginia	Prince George County VA	\$800

Prince George County, Virginia	Funding will be used for the construction of new storage and pumping facilities to replace current facilities that are undersized to meet current demands.	Prince George County VA	\$4,500
Prince George County, Virginia	Funding will be used to provide complete redundancy in water supply for ninety percent of the county's public water customers and reduce the potential for disruption in service.	Prince George County VA	\$4,000
Maury Service Authority (MSA)	Funding will be used to rehabilitate a wastewater storage tanks and associated equipment in Rockbridge County, Virginia.	Rockbridge County VA	\$1,000
Shrine Mont	Funding will be used for the renovation of historic buildings at Shrine Mont in Orkney Springs.	Shenandoah County VA	\$480
Stafford County, Virginia	Funding will be used to increase conveyance capacity of a water main from the west side of I-95 to Richmond Highway to tie into the existing water main line and support growth in northeastern Stafford County.	Stafford County VA	\$3,522
Metropolitan Washington Council of Governments	Funding will be used to identify and communicate investment and policy needs to increase land access, preservation, and resilience around our nation's capital, the Commonwealth of Virginia, and the Chesapeake Bay.	Statewide/Multiple Locations VA	\$1,500
Town of Wakefield, Virginia	Funding will be used to improve drinking water infrastructure in the Town of Wakefield, Virginia.	Sussex County VA	\$1,423
Sussex County, Virginia	To fund the acquisition of easements for the Route 460 Regional Waterline Design Project which will enhance the shovel-readiness of the Sussex Megasite.	Sussex County VA	\$2,825
Town of Fries, Virginia	Funding will be used to upgrade drinking water and wastewater infrastructure in the Town of Fries, Virginia.	Town of Fries VA	\$1,000
Town of Iron Gate, Virginia	This project will construct an adequate water tower in the Town of Stanardsville for adequate drinking water and fire flow to the community.	Town of Iron Gate VA	\$2,000
Whitney Hughes	Funding will be used to improve water quality in the Town Branch Stream, to reduce the discharge pollutants such as sediment, nitrogen, and phosphorus into area waterways that feed into the Chesapeake Bay, and to protect adjoining residential properties from flooding and erosion.	Town of Leesburg VA	\$1,500
Town of Wytheville, Virginia	Funding will be used to replace outdated equipment at the wastewater plant in the Town of Wytheville, Virginia.	Town of Wytheville VA	\$1,886
BVU Authority	Funding will be used to replace an aging waterline in Washington County, Virginia	Washington County VA	\$2,000
Wise County Public Service Authority	Funding will be used to upgrade drinking water infrastructure in the Town of Pound, Virginia.	Wise County VA	\$2,000
Joint Industrial Development Authority of Wythe County, Virginia	To develop water infrastructure within the greater Wytheville, VA community.	Wythe County VA	\$3,750
York County, Virginia	Funding will be used to extend the municipal sewer system to unserved properties in York County, Virginia.	York County VA	\$1,600
