May 27, 2022

The Honorable Jeff Merkley  
Chairman  
Subcommittee on Interior, Environment,  
and Related Agencies  
Committee on Appropriations  
United States Senate  
Washington, D.C. 20510

The Honorable Lisa Murkowski  
Ranking Member  
Subcommittee on Interior, Environment,  
and Related Agencies  
Committee on Appropriations  
United States Senate  
Washington, D.C. 20510

Dear Chairman Merkley and Ranking Member Murkowski,

I certify that neither I nor my immediate family has a pecuniary interest in any of the congressionally directed spending items that I have requested in the Fiscal Year 2023 Interior, Environment, and Related Agencies bill, consistent with the requirements of paragraph 9 of Rule XLIV of the Standing Rules of the Senate.

Sincerely,

MARK R. WARNER  
United States Senator

**Warner, Mark(D-VA) Interior and Environment  
Congressionally Directed Spending Requests**

<b>Recipient Name</b>	<b>Project Purpose</b>	<b>Project Location</b>	<b>Amount Requested (\$000)</b>
Amherst County Service Authority (ACSA)	Funding would be used to rehabilitate a publicly-owned interceptor wastewater sewer in Amherst County, Virginia.	Amherst County VA	\$2,000
Arlington County	Funding would be used to rehabilitate a 2,906-foot section of an interceptor wastewater sewer in Arlington County, Virginia.	Arlington County VA	\$1,680
Arlington County	Funding would rehabilitate a 5,876-foot section of an interceptor wastewater sewer in Arlington County, Virginia.	Arlington County VA	\$2,000
City of Alexandria Sanitation Authority dba Alexan	Funding would be used to construct a portion of a combined sewer overflow control project in the City of Alexandria, Virginia that will prevent over 120 million gallons of combined sewage from entering the City's waterways each year.	City of Alexandria VA	\$4,000
City of Bristol	Funding would be used by the City of Bristol, Virginia to retain expert consultants to aid research efforts to find effective solutions to solve the noxious odor issue at the City's Solid Waste Management Facility.	City of Bristol VA	\$2,000
City of Chesapeake	Funding would be used to replace and install approximately 9,000 feet of water main and approximately 140 service lines to homes that are suspected to be served by lead service lines in and around the Avalon area of South Norfolk, Virginia.	City of Chesapeake VA	\$3,710
City of Harrisonburg	Funding will be used for the design and construction of a raw water and potable water transmission project in the City of Harrisonburg, Virginia. The project will convey water from the City of Harrisonburg's Dry River Intake to the Grand View Drive Water Treatment Plant, in total requires installation of 55,000 feet of new 30" pipe.	City of Harrisonburg VA	\$4,880
City of Norfolk	This project will consist of the replacement of approximately 2,500 linear feet of gravity sewer main, associated manholes, cleanouts, and public laterals in the right-of-way in the Ballentine Place community of Norfolk, Virginia.	City of Norfolk VA	\$1,600
City of Norfolk	Funding would be used to replace the Little Creek drinking water storage tank discharge pump generator in the City of Norfolk, Virginia. The proposed project will install a new generator system that is connected to on-demand natural gas, eliminating the need for refueling visits and ensuring continuity of service during periods of prolonged electricity outages.	City of Norfolk VA	\$800
City of Petersburg	Funding would go toward construction of approximately 7,650 linear feet (LF) of twenty-inch (20") ductile iron water-main to replace the existing twenty-inch (20") asbestos cement water-main which has exceeded its useful life and has experienced a series of substantial breakages over the past decade.	City of Petersburg VA	\$3,582
City of Portsmouth	Funding would be used to rehabilitate and replace the vacuum assisted sanitary sewer system in the City of Portsmouth, Virginia.	City of Portsmouth VA	\$6,000
City of Richmond	The purpose of this project is to stabilize the Byrd Park Pump House in the City of Richmond Virginia to make it more available for public use and to preserve it for future generations. Stabilization will expand the number of visitors who can access the building beyond the current limit of 25 people wearing hardhats, only in special circumstances. Stabilization is the first phase of a larger renovation project.	City of Richmond VA	\$500
City of Virginia Beach	Funding would support the design and construction of a stormwater pump station in the vicinity of Lake Windsor and South Boulevard in the City of Virginia Beach, Virginia.	City of Virginia Beach VA	\$5,000

City of Virginia Beach	Funding will go toward drainage improvements and flood mitigation along the eastern shore.	City of Virginia Beach VA	\$5,000
George Mason University	Funding would be used to establish and pilot the Greater Chesapeake Tribal Resilience Initiative (GCTRI), to enhance the capacity of Indigenous nations to be leading change-agents in coastal environmental adaptation. The GCTRI will establish a peer-to-peer resource sharing network among Virginia's seven federally-recognized tribes through which they can work with university partners on sustainability initiatives, including applied research and business development.	Fairfax County VA	\$1,502
Frederick County Sanitation Authority d/b/a Freder	Funding would be used to construct a new water treatment plant, a water intake system, a new pumping system, and the development of a water storage system in Frederick County, Virginia.	Frederick County VA	\$3,500
Halifax County Service Authority	Funding would be used to upgrade and convert a 70 year old surface water plant with a conventional gravity sand drinking water filter plant in Halifax County, Virginia.	Halifax County VA	\$9,000
Prince Edward County	Funding would provide a new reliable, secure drinking water source for Prince Edward County, the Town of Farmville, and surrounding communities.	Prince Edward County VA	\$3,980
U.S. Fish and Wildlife Service	To fund a U.S. Fish and Wildlife Service conservation easement acquisition of nearly 1,000 acres at the Rappahannock River National Wildlife Refuge. These lands, also known as Fones Cliffs, are culturally significant to the Rappahannock Tribe, a federally recognized tribe in Virginia.	Richmond County VA	\$3,000
Rockbridge County	Funding would support the design and construction of a new raw water pump station in Rockbridge County, Virginia.	Rockbridge County VA	\$3,000
Town of Exmore	This project is for a sewage collection system in the Town of Exmore, Virginia. The collection system will convey wastewater from approximately 725 residents and commercial connections.	Town of Exmore VA	\$3,000
Town of Pulaski	Funding would be used to complete architectural and engineering design and conduct preservation construction activities for the historic Calfee Training School in Pulaski, Virginia.	Town of Pulaski VA	\$500
Town of South Boston	Funding would be used to complete repairs and replace storm sewer lines and associated appurtenances in the Town of South Boston, Virginia.	Town of South Boston and Halifax County VA	\$3,200
Wolf Trap Foundation for the Performing Arts	Funding would be used to make electrical and security repairs at Wolf Trap National Park for the Performing Arts in Vienna, Virginia.	Town of Vienna VA	\$2,000
