## **RE: Executive Branch violations of Section 715 of P.L. 118-47**

Director Vought,

As Congress continues to work on funding the federal government for Fiscal Year 2026, the White House and political appointees assigned to agencies within the executive branch have been engaged in a widespread campaign of partisan political activities. These activities are in blatant violation of Section 715 of P.L. 118-47, which prohibits federal funds from being used for propaganda purposes “designed to support or defeat legislation pending before the Congress.”<sup>1</sup> These activities also appear to violate the Anti-Lobbying Act<sup>2</sup> and the Hatch Act.<sup>3</sup> We urge you to immediately remove these illegal, partisan messages to comply with the law and hold accountable those who have directed this behavior.

As early as September 30, 2025, federal agencies began publicly posting various notices and other media from official accounts, on official websites, and in official email correspondence that violate Sec. 715’s prohibition on propaganda.

For example, beginning on September 30, 2025, the official website for the Department of Housing and Urban Development displayed a blatantly partisan political banner on their website claiming that the “Radical Left are going to ... inflict massive pain on the American people...”<sup>4</sup> On October 1, 2025, similar partisan political messages appeared on the websites for the Small Business Administration, the Department of Justice, and the Department of Agriculture, among others.

In addition to website updates, federal employees - including of the Small Business Administration, Department of Labor, Department of Education, and Department of Veterans Affairs - were reportedly directed to set automatic reply email messages containing partisan political propaganda which asserts that “Democrat Senators are blocking passage of H.R. 5371 in

the Senate which has led to a lapse in appropriations.<sup>5</sup> As you well know, these messages are misleading, given that Democrats have voted four times over the last week to fully fund the government only to be rebuffed by our Republican colleagues. But more important, they are clear violations of Section 715, which prohibits the use of federal funds by an agency to publicly support or oppose legislation pending before Congress.

Spirited public debate has its place, but agency resources, including websites or emails, should not be used to send overtly political, and in this case, misleading messages, to the American people.

Congress has enacted longstanding laws to ensure that partisan political activities and propaganda do not impede the government's ability to serve all Americans. However, given the blatant, systematic, and repeated violations of Sec. 715 of P.L. 118-47, and likely the Anti-Lobbying and Hatch Acts, over the last week, you must immediately remove these partisan messages from all executive branch agency communications and websites.

Sincerely,
